After saying in the morning that Garvin would be released, Manager Hanlon added late in the afternoon that he had first suspended him with weas to carry them downtown, Hanlon said that he had decided to give Garvin his choice of indefinite suspension without pay or uncond tional release. Chairman Herrmann, of the National Commission, has sent out a circular letter to the heads of the various leagues requesting them to notify their clubs that all claims for players and all reports of sales must be accompanied by copies of the agreements ununder which they are made. This is done to prevent a promiscuous transfer of players in the fall for the protection of minor league clubs by some of the major organizations. This scheme was worked last fall to the detriment

Lumley was responsible for the three-base hits of Peitz and Seymour in the game yesterday. He misjudged Peitz's fly badly, turning an easy out into a triple, and by bad fielding on Seymour's pop fly over first he allowed three bases also. Both hits assisted the Redmaterially in wirning the game.

The Reds' victory gave them the season's series with the Brooklyns, making the twelfth defeat they have administered to Hanlon's men, who have won six games from the Reds, two of which were captured on the local grounds.

MIDDLETOWN, Aug. 2d.—At the Goshen races Hettle G., owned by James Butler, of New York, and driven by Thomas W. Murphy, of Glen Cove, L. Fast Runners to Meet.

Among the interesting events to be decided at the Tailtin games, to be held by the Greater New York Irish A. A. on Labor Day, at Celtic Park, is a three-quarter mile handicap run. In this event Harvey Cohn, of the Greater New York Irish A. A., holder of the one-mile junior and senior metropolitan championships, will meet Charles Bacon, a clubmate, who holds the half-mile metropolitan championship, and it would not be surprising if a new record for the distance was made.

The reason why the date question is going to be a problem for the Jockey Club is that Belmont Park will be in operation next zeason, and it is not operation next zeason.
